Jira your way

Easily customize your workflows by turning on (or off) tons of powerful features with a single click.

Teams in Space / Features

Features

...

Roadmap
Your roadmap is an optimized location to create and manage your epics.

Backlog
Break-down and prioritize your team's work in a dedicated space.

Sprints
Complete work in fixed units of time. Requires a backlog.

Reports
Analyze and track your team's work by reporting on the project's activity.

"We grew to 30 projects with lots of plans and branches under each, which means 50 running builds at the same time. Considering the number of projects, we couldn't have survived without Atlassian."
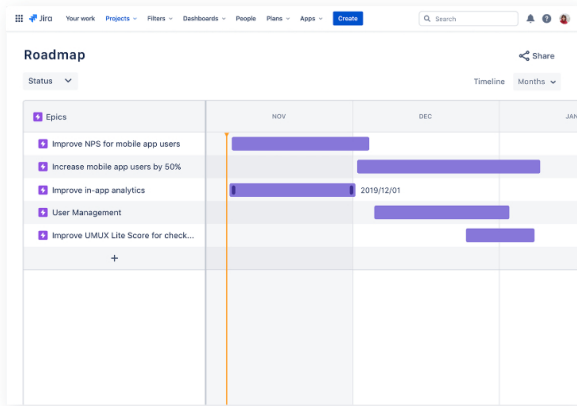

Scott Carpenter
Work Program Manager, Fugro Roames

FUGRO

Unfunk your workflow

Set up, clean up, and easily manage even the most hectic project workflows.
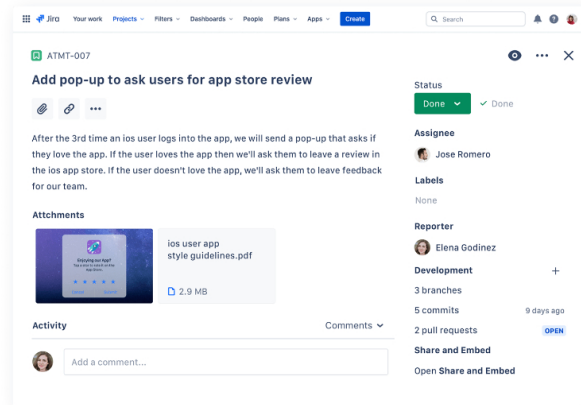

Next-gen board

Stay on track – even when the track changes

Use new roadmaps to sketch out the big picture, communicate plans with stakeholders, and ensure your team stays on the same page.

Ditch the spreadsheets

Keep every detail of a project centralized in real time so up-to-date info can flow freely across people, teams, and tools.

Concept to launch in record time.
